PARENT ACTION PLAN

I have a concern….	I would like my child to…	I will take these steps to help my child…
My child doesn't seem to understand algebra and is failing the course.	• Ask the teacher for help • Review and check his work • Pass algebra	• Talk with my child • Check grades on Parent Portal and monitor progress • Talk with the teacher, counselor, school staff • Ask what are the specific difficulties • Problem solve with the school • Find out what resources and support the school offers •
I have a meeting with a large team of teachers to discuss my child's educational needs.	• To be assessed and have access to the appropriate services to support and accelerate learning • Enjoy learning • Ask for help • Feel safe • Comfortable • Do well in school	• Go to the scheduled meeting and if not able to attend, call the School to schedule another meeting • Talk with my child to make sure his feelings and goals • Ask who will be at the meeting and how long it will last • If you need an interpreter, ask the school for assistance or bring someone with you • Prepare for the meeting , by writing down what you want to share with the team about your child and your questions • Listen with open ears and an open mind to the information shared about your child (e.g., assessment results, observational data, classwork) and the recommendations • Ask questions when you do not understand the information • Be positive and let the team know you are part of the team (e.g., I feel… I hope my child...My child is feeling…. I wonder…. I am not sure I understand, I heard you say….I am feeling overwhelmed, can you repeat that… What does that mean…Can you give me an example… What is the best way for me to communicate with the teacher… What can we do at home…)
